ANDYFORD OSEI BOATENG

Kumasi, Ghana | boateng.andyford@gmail.com | +233 245 997 210

PROFILE

Final-year BSc Information Technology student at Garden City University (CWA 76, expected May 2027), with hands-on experience designing and building secure, role-based web systems used to automate university administrative processes. Primary interests are software engineering and cybersecurity, particularly access control, system design, and audit integrity in multi-party systems. Alongside my studies, I founded and run Suave Solutions Ghana, a general trading business, which has sharpened my ability to manage responsibility, make decisions under pressure, and build something of my own from the ground up.

EDUCATION

BSc Information Technology, Garden City University *Kumasi, Ghana | Aug 2023 – Expected May 2027*

Cumulative Weighted Average (CWA): 76

Relevant coursework: Data Structures & Algorithms, Database Systems (MySQL/SQL Server), Software Engineering & Analysis, Web Development (HTML/CSS/JavaScript), Computer Organization & Architecture, Programming (Python, Java, C++, VB.NET).

WASSCE, Kumasi Armed Forces Senior High Technical School

Kumasi, Ghana | Business Programme | Completed 2016

KEY PROJECTS

Multi-Departmental Digital Student Clearance Portal *Final-Year Project | Sole Developer*

- Designed and built a web application automating Garden City University's graduation clearance process, replacing a manual, paper-based workflow across multiple administrative departments.
- Backend in Python/Django, frontend in HTML5/CSS3/JavaScript; migrating the database to PostgreSQL (Neon) ahead of deployment.
- Implemented Role-Based Access Control (Django Groups) enforced at both the queryset and view level, so each department can only view and act on its own data, with server-side authorization checks rejecting unauthorized requests (HTTP 403).
- Built an immutable audit log recording every status change and remark (user, field changed, timestamp, IP address), giving the university a verifiable accountability trail for the first time.
- Delivered a real-time student dashboard and dedicated departmental admin consoles, with an automated status engine that issues a “Fully Cleared” status only once every department approves.

Garden City University Staff Web Directory *Sole Developer | PHP, MySQL*

- Built a searchable public directory of lecturers and staff (search by name, staff ID, category and school) with a public profile page for each person, using PHP and MySQL.
- Built a private staff portal for profile updates, publications, leave applications routed to HRD for approval, and a mailbox, with HR-managed accounts and session-based login.
- Started at my supervisor's request. Running locally with demo data; deployment pending approval.

Nixmasoft Inventory Management System *Java*

- Built an inventory and stock-tracking application to help monitor supply levels and improve record accuracy.

TECHNICAL SKILLS

Languages: Python, Java, C++, PHP, Visual Basic (.NET) | Web: HTML5, CSS3, JavaScript, Django | Databases: MySQL, SQL Server, PostgreSQL | Security: Role-Based Access Control (RBAC) design, server-side authorization, audit logging | Tools: Microsoft Office, Google Docs

CERTIFICATIONS

- Introduction to Cybersecurity, Cisco Networking Academy, Dec 2024
- Cybersecurity, ADB Institute (ADBI), Aug 2026
- Computer Hardware Basics, Cisco Networking Academy, Jan 2025

Additional professional development: Net Zero 101 (United Nations University, UNU-IAS); Agripreneurship: A Path to the Future (YALI Network).

LEADERSHIP & ENGAGEMENT

- Virtual Delegate, "FutureWorks: Designing Jobs for the Digital Age", World Bank Group Youth Summit, 2026

ENTREPRENEURSHIP & ADDITIONAL EXPERIENCE

Founder, Suave Solutions Ghana *May 2025 – Present*

- Founded and run a general trading business while studying full-time, currently distributing mattresses to retailers across Kumasi.
- Manage supplier negotiations, pricing, and logistics independently, and am preparing to expand into agrochemicals and lubricants distribution.

Primary School Teacher, New Life Christian Academy (2017–2019); Fuel Station Attendant, GOIL (2020–2023).
