ABOUT ME

Final-year BSc Information Technology student at Garden City University (CWA 76; expected May 2027), focused on junior backend and web development. Built database-backed web applications in Python/Django and PHP/MySQL, with role-based access control, server-side authorization and audit logging. Also founded and run a trading business, managing supplier negotiations, pricing and logistics while studying full-time.

TECHNICAL PROJECTS

Multi-Departmental Digital Student Clearance Portal

FINAL-YEAR PROJECT | SOLE DEVELOPER | PYTHON, DJANGO, HTML, CSS, JAVASCRIPT

- Designed and built a web application that moves a multi-department university graduation-clearance workflow off paper.
- Implemented role-based access control with Django Groups, enforcing authorization at both queryset and view levels to separate departmental access.
- Added audit logging for status changes and remarks, recording the user, changed field, timestamp and IP address.
- Built a student status dashboard and departmental administration views; full clearance requires approval from all departments.
- Currently in testing; deployment is pending supervisor/university approval.

Garden City University Staff Web Directory

SOLE DEVELOPER | PHP, MYSQL

- Built a searchable staff directory with search by name, staff ID, category and school, plus individual public profile pages.
- Developed a private staff portal for profile updates, publications, HR-routed leave requests and a mailbox, with session-based login and HR-managed accounts.
- Runs locally with demo data; deployment is pending approval.

Nixmasoft Inventory Management System

CLASS PROJECT | JAVA

- Built an inventory and stock-tracking application to help monitor supply levels and improve record accuracy.

KEY CORE SKILLS

Languages	Python • Java • PHP • JavaScript • C++ • Visual Basic .NET
Web & Frameworks	Django • HTML5 • CSS3
Databases	MySQL • SQL Server • PostgreSQL (project use/migration)
Backend Concepts	RBAC & server-side authorization • Audit logging
Tools	GitHub • Microsoft Office • Google Docs
Professional	Problem solving • Decision-making • Supplier negotiation • Logistics

WORK EXPERIENCE

05/2025 – Present

Founder

SUAVE SOLUTIONS GHANA — KUMASI, GHANA

- Founded and run a general trading business distributing mattresses to retailers across Kumasi while studying full-time.
- Manage supplier negotiations, pricing and logistics independently.
